The story of Frankie Valli & The Four Seasons

OFF-SITE HOSPITALITY - THE GRACE HOTEL

The landmark Grace Building has played an important role in the history of Sydney and Australia. It was the Grace Brothers retail empire in 1928 and remains one of Sydney's most prominent examples of pre war architecture.

Converted into The Grace Hotel in 1997, today the hotel has come into its own as one of Australia's best known hotels located within a grand heritage building and remains a historic icon against Sydney's skyline.

The Grace makes an elegant and conveniently located venue for any function or event. The hotel's Art Deco inspired function rooms can accommodate between 10 and 400 people.
